

Point of Care Risk Assessment COVID-19

PRIOR to each patient interaction, the denturist assesses the:

- task to be completed
- patient
- environment.

ROUTINE PRACTICES MUST BE USED WITH ALL PATIENTS AT ALL TIMES

Refer to the Infection Prevention and Control Guidelines for appropriate use, donning and doffing of all PPE.

¹ Bodily fluids include, but are not limited to, saliva, sputum, nasal secretions, urine, feces, wound drainage and vomit
