Message from Leadership

The College of Alberta Denturists exists so that Albertans may be assured of receiving safe, competent, and ethical denturist care and services. With the strategic plan in mind, the College continues to fulfil its legislated mandate and requirements. We are very pleased to have received two additional public members for our Council. This continues to move us toward our legislated minimum ratio of public to professional members on Council. In alignment with our fiscal responsibilities, we are also happy to report that after review of our financial activities for 2024, we are within 5% of budgeted revenues and 1% of expenditures. We continue to exercise our fiduciary responsibilities with respectful consideration.

The College persisted in 2024 to provide practice guidance to denturists through the release of a series of guidance documents. New resources released in 2024 included those for medical device compliance, professionalism, sterilization monitoring, and updated infection prevention and control guidelines. These documents provide denturists guidance on and insight into the Standards of Practice that are applicable in the provision of patient and client care and services.

In collaboration with denturists and regulators in British Columbia, Saskatchewan, Manitoba, and Ontario, throughout 2024, the College continued its work on the multijurisdictional registration examination for denturists in Canada. We are also excited at the prospect of the Atlantic provinces aligning on this project. With the multijurisdictional multiple-choice exam having been administered since 2021, foundational work is being finalized to shift the provincial objective structured clinical examination (OSCE) to a multijurisdictional format as well. The first administration of the multijurisdictional OSCE is scheduled for June 2025.

From a financial perspective, the College is also pleased that, overall, actual financial activities mirrored the forecasted budget. Variances existed in examination fees collected with the influx of out-of-province candidates and in professional conduct stemming from unanticipated legal expenses. These areas of the budget are subject to fluctuations that can be outside management's control.

The College is proud that denturists across the province are working in various capacities to ensure safe and competent denturist care and services for all Albertans. Through the dedication and hard work of regulated and public members on our statutory and other committees and initiatives, co-regulation is evident in the College. Council and staff thank those whose commitment to the organization ensures that the people of this province receive high quality care and services.

We are honoured to serve Albertans with our knowledge and expertise both in a governance and professional capacity and present this annual report, as approved by Council, for the year ending December 31, 2024.

Respectfully,

Lora Mattie

Current Council Chair

Dacia Richmond

Executive Director & Registrar

The College

The College of Alberta Denturists is the regulatory body for denturists in Alberta pursuant to the *Health Professions Act* (HPA) and the *Denturists Profession Regulation* enacted thereunder. Schedule 8 of the HPA was proclaimed in force as was the *Denturists Profession Regulation* on September 1, 2002.

To deliver its mandate of ensuring that Albertans receive ethical, professional, and safe denturist care and services, through leadership, innovation and interprofessional relationships, the College works with the public, its members and industry partners.

The Profession

Denturists are independent, primary healthcare providers who work in varied practice settings and provide one or more of the following services:

- Assess, diagnose, and treat persons missing some or all their natural teeth
- Design, construct, repair, alter and fit any complete or partial denture for restoring and maintaining function and appearance
- Teach, manage, and conduct research in the science, techniques, and practice of denturism
- Provide restricted activities authorized in the regulation

Most denturists provide their services from independent denture clinics; however, some practice in other environments such as in a laboratory, education, mobile, research, or administrative settings. Those denturists work in a clinical setting provide dental prostheses for patients who are missing some or all of their natural teeth, as well as some other dental related services such as sports mouth guards.

In Alberta, denturists may use the protected titles of denturist, and registered denturist while on the general register or provisional denturist for those on the provisional register. The College also recognizes the initials DD and the term denture specialist to denote registration as a denturist in Alberta.

List of Leadership

Council

Kim Maximchuk, DD - Chair

Karen Galloway, DD - Vice Chair

Tim Kohlen, DD

Satpreet (Sunny) Grewal, DD

David Fedechko, DD

Joe Gagliardi, FCPA, FCMA, ICD.D – public member

Lora Mattie – public member

Munira Peermohamed, CPHI(C), CP-FS, PCQI – public member (from October 9, 2024)

Robin Erickson, KC, BComm, LLB – public member (from November 7, 2024)

Staff

Dacia Richmond - Executive Director & Registrar, Complaints Director

Andrea Snow – Complaints Director, Privacy Officer

Andrea Thorrougood – Regulatory and Corporate Services Coordinator, Hearings Director

Public Members' Report

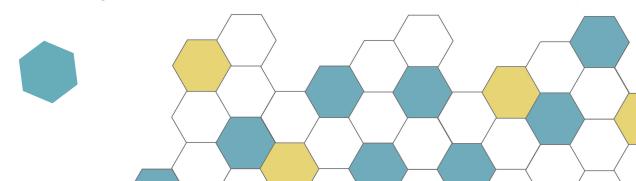

The denturists of Alberta are regulated under the *Health Professions Act* (HPA). Denturists specifically are self-governed via the College of Alberta Denturists, whose prime directive is to protect the public interest of all Albertans. The HPA was introduced to regulate health professions in a manner that facilitates non-exclusive, overlapping scopes of practice. The HPA requires colleges to carry out governance responsibilities as well as to serve in the public's best interest.

Public members are appointed as government volunteers and have the mandate to protect the public's best interest. Public Council members, who provide sound governance guidance as it pertains to College affairs, are appointed to regulatory College Councils for three-year terms through an Order of Council by the Lieutenant Governor of Alberta, in accordance with the HPA.

We are happy to report that late in 2024, Munira Peermohamed, who has a wealth of public member experience, and Robin Erickson, a retired lawyer with a strong governance background, have joined Lora Mattie and Joe Gagliardi as our third and fourth public members on the College of Alberta Denturists' Council. With four public members we are still underrepresented of our goal of 50% public members on the College of Alberta Denturists' Council and 50% industry members representation. We are optimistic to have a balanced representation on Council in the coming year.

In 2024, the College continued work in preparation for the multijurisdictional objective structured clinical examination (OSCE) for June 2025. The College also released new and updated practice guidance documents in the following areas:

- Infection prevention and control
- Medical device compliance
- Professionalism
- Sterilization monitoring

In addition, the College sent a letter to the Honourable Adriana LaGrange, Minister of Health, to highlight concerns about the financial challenges faced by denturists due to unchanged reimbursement rates from social programs like AISH and the Dental Assistance for Seniors Program. Rising costs have made it difficult for denturists to provide care to patients funded by these programs, potentially leading to inadequate treatment for some members of the public. The Council urges the ministry to investigate options to support the public while considering the economic pressures on denturists.

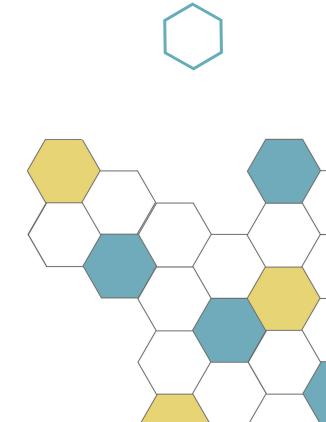

Another noteworthy accomplishment was a clean audit from our appointed auditors, Lagom LLP. The College also made presentations to students and denturists to keep these stakeholders apprised of new developments, such as crafting a jurisprudence module for use in 2025 and onwards for applicants.

The College of Alberta Denturists also successfully participated in assessing the parameters of NAIT's denturist program accreditation, while conducting focus group consultation with denturists on proposed changes to the *Health Information Act*.

Best regards,

Lora Mattie Joe Gagliardi, FCPA, FCMA, ICD.D Munira Peermohamed, CPHI(C), CP-FS, PCQI Robin Erickson, KC, BComm, LLB

Committees & Advisories

Examination Committee

The Examination Committee works to ensure that the registration examination administered by the College is a psychometrically sound, robust, and defensible process by which the eligibility for registration with the College may be determined. In 2024, the Examination Committee oversaw the College's Objective Structured Clinical Examination.

Tony Ivicevic, DD – Chair Erin Barbeau, DD Ashley Adams, DD

Registration Committee

The Registration Committee is established by statute and confers and makes decisions on matters of registration referred to it by the Registrar and oversees the Continuing Competence Program.

Jatinder Sharma, DD – Chair Jason Le, DD
Corey Hyde, DD Darron Ward, DD
Anne Keough, DD Darrell Cruz, DD

Hearing Tribunal and Complaint Review Committee Roster

This roster is the list from which members of a Hearing Tribunal or Complaint Review Committee are selected by the Hearings Director for a particular matter.

Gabriela Alvarado-Torres, DD Shristi Chand, DD Rainella Deis, DD Rick Donily, DD Vadim Dumbrava, DD Raymond Houle, DD Limson Kannanaykal Seemon, DD Anne Keough, DD Shalvin Nath, DD Rae-Lynne Porter, DD Donelda Reppert, DD Jatinder Sharma, DD Saba Siddique, DD Cynthia Sweet, DD

Continuing Competence Report

The College's authority for the Continuing Competence Program (CCP) resides in the College's Standards of Practice. Denturists must complete 100 hours of continuing education, in accordance with the rules established by Council, within each five-year cycle beginning on the January 1 following the year of the regulated member's initial registration with the College. Further, in each registration year, denturists must complete a minimum of 10 hours of CCP learning.

Regulated members may show compliance with the CCP by undertaking activities that are relevant to their practice of denturism. Aside from the areas that pertain directly to the scientific and clinical aspects of the profession, the College encourages members to participate in education in other areas such as business and other programing which results in the members providing quality care to their patients and clients.

In 2024, the College continued with its two-step validation process for monitoring member compliance with the CCP.

- Denturists must be in compliance with their CCP in order to renew their practice permit for the subsequent year. Failure to comply may have implications on a denturist's practice permit. As such, a quantitative validation is done when reviewing applications for renewal. This validation verifies that the denturist has completed the learning required.
- In July, the Registration Committee, the statutory committee with legislated oversight of the CCP, carried out the qualitative validation of member compliance with the CCP. The committee reviewed 42 CCP portfolios of a randomly selected sample of denturists to ensure compliance with all aspects of the CCP. This represented 15% of registered denturists.

Both processes work together and exemplify due diligence by the College in monitoring denturists' participation in the CCP. In 2024, all members were in compliance with their CCP requirements.

Registration Report

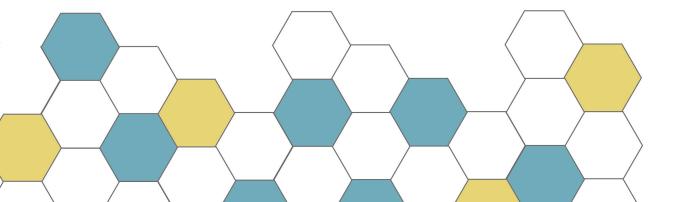

The College works to ensure that solid and defensible criteria are in place by which applicants to the College are assessed for registration initially and at renewal. By these processes, we report our registration activities for 2024.

Registration Review

In 2024, there were no reviews requested as a result of a registration decision.

Professional Conduct Report

The College of Alberta Denturists (College) upholds its mandate under the *Health Professions Act* (HPA) by regulating the practice of denturists in the public interest. A key aspect of this responsibility is ensuring that patients receive ethical, competent, and safe care.

When a complaint is received, it undergoes a thorough review to determine the most appropriate course of action. This may involve facilitating a resolution between the parties, with or without the Complaints Director's assistance, or proceeding with further investigation. In some instances, a subject matter expert may be consulted, while in others, complaints may be dismissed due to insufficient information or lack of jurisdiction.

Regardless of the path taken, the College remains committed to a fair, transparent, timely, and professional complaint resolution process, ensuring public confidence in the regulation of denturists.

Complaints		Complaints	
Carried over from 2022/2023	4	Dismissed	6
New in 2024	27	Resolved informally	4
Total	31	Alternate Complaint Resolution	0
Closed in 2024	10	Investigated (files sent to investigation in 2024)	11
Remain active	21	Referred to a hearing	0

Complaint Themes

Complaint themes revolved around fit, function, patient care, aesthetics, discrimination, and billing in 2024. Of the 10 files closed in 2024, the most common complaint was about patient care and fit and function of the dentures.

Hearings

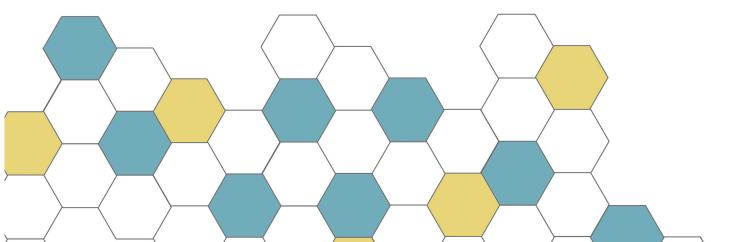

Administrative hearings involve regulated members from within the profession and public members appointed by the Government of Alberta. These occur when there is evidence of alleged unprofessional conduct under the HPA.

Hearings	Number of Hearings
Carried over from 2022*	2
Held in 2024	2
*Hearings are ongoing	

Appeals

Decisions may be reviewed or appealed, which adds an extra level of fairness to ensure decisions are reasonable and the process was handled in accordance with the principle of natural justice.

Type of Request	Heard by	Number of Requests
Review of Complaint Dismissal	Complaints Review Committee	e 1
Hearing Tribunal Decision	Council of the College	0
Council finding, order or direction	Court of Appeal	0

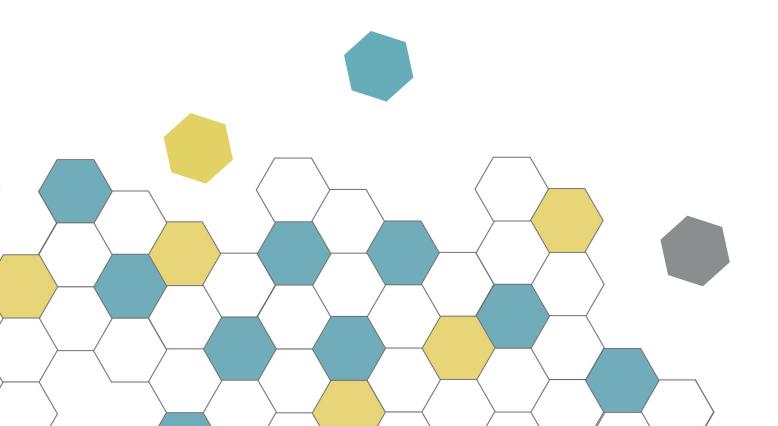

Sexual Abuse and/or Sexual Misconduct Complaints

Under the HPA, all sexual relationships with patients are strictly prohibited, regardless of consent. The HPA distinguishes between sexual abuse, which involves physical sexual conduct with a patient and sexual misconduct, which includes inappropriate comments, gestures, or behaviours of a sexual nature.

If a patient reports allegations of sexual abuse or misconduct, the College provides support through the Patient Treatment and Counselling Fund, which offers financial assistance for treatment and counselling. Any finding of unprofessional conduct in these cases is taken seriously and may lead to significant consequences such as permanent cancellation of a denturist's registration and practice permit.

For reference, the following table provides data on these types of complaints, along with details on funds disbursed through the Patient Treatment and Counselling Fund.

Year	Sexual Abuse	Sexual Misconduct	Funds Dispersed
2024	0	0	\$0
2023	O	1	\$0
2022	0	0	\$0

Patient Relations Program

The College has established a Patient Relations Program in accordance with Part 8.2 of the *Health Professions Act*. This entity is multi-faceted in that it provides for:

Education

- All Council, College staff, and Hearing Tribunal/Complaint Review Committee Roster regulated members receive training in trauma informed practice and the legal issues pertaining to sexual abuse and sexual misconduct by regulated members towards patients.
- All other regulated members have received training on trauma informed practice.
- All new applicants must complete the trauma-informed training as part of the application process.
- The College has provided information on its website clearly and with transparency.

Standards and Guidelines

- The College's Standards of Practice provides the definition of a patient and sets the minimum expected standards for denturists in regard to professional boundaries and the inherent power imbalance between the patient and denturist.
- The College's Standards of Practice and Code of Ethics are current. The Standards were revised in response to legislative changes and came into force January 1, 2023.
- The College published a practice guideline on the conduct of regulated members towards patients.

Funding for Treatment and Counselling

- In accordance with the regulations, the College has established a fund which is available to a complainant who alleges sexual abuse and/or sexual misconduct by a regulated member.
- Eligibility for and disbursement of funds are as per the regulations.

The College has not been requested to nor dispersed funds of this matter in 2024.

Funding Guidelines for Treatment and Counselling Annual Report

	Related to Sexual Abuse	Related to Sexual Misconduct	Total
Number of Complaints	0	0	Ο
Number of Patients who Accessed the Fund	0	0	0
Amount of Money Dispersed	\$0	\$0	\$0

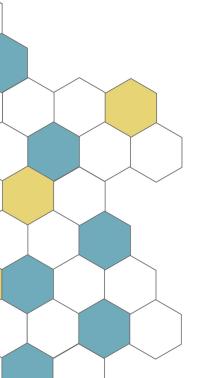

Examination Report

The College of Alberta Denturists administers a registration examination that is used as a measure to assess applications for registration as a regulated member on the general register. The exam consists of two components: a multiple-choice question (MCQ) examination and an objective structured clinical examination (OSCE). This exam structure ensures consistency and objectivity in assessment. A candidate must be successful on both components in order to qualify for registration on the general register. As per policy, an individual may have a maximum of three attempts, per component.

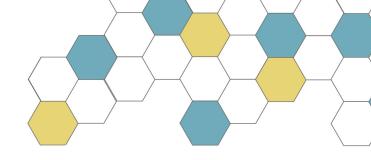

Under the psychometric guidance of Martek Assessments Ltd., the College ensures that the processes for the development and administration of the registration examination for denturists have rigor and fairness imbedded. The examinations are developed based on the national competency profile for denturists and approved examination blueprints. The MCQ component is administered via remote proctoring and as the multijurisdictional MCQ having many provinces subscribing to a single exam. In 2024, the OSCE has provincial context. A group of Canadian denturist regulators, in which Alberta is playing a pivotal role, is working to also establish a multijurisdictional OSCE first scheduled to take place in 2025. The movement towards a complete multijurisdictional exam gives the Colleges greater confidence in labour mobility.

2024 Examination Results

The MCQ is offered twice per year for candidates while the OSCE once. The results follow below.

February 2024

	мсо	
	Candidates	Successes
First-time sitting	1	1
Successive sittings	2	2

June 2024

	МС	Q	0	SCE
	Candidates	Successes	Candidates	Successes
First-time sitting	19	18	19	16
Successive sittings	1	Ο	7	3

Candidates are advised that they have the option to appeal their results based on the exam process. There was one exam appeal in 2024.

The College would like to express its appreciation to all denturists who contributed their expertise and assistance. Their invaluable contribution with development, assessing, and standardizing ensures that this examination is robust and defensible in terms of both validity and reliability.

Independent Auditor's Report

To the members of College of Alberta Denturists

Opinion

We have audited the financial statements of College of Alberta Denturists, which comprise the statement of financial position as at December 31, 2024, and the statements of operations, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the organization as at December 31, 2024, and its results of operations and its cash flows for the year then ended in accordance with ASNPO.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other responsibilities in accordance with ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with ASNPO, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the organization's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

December 31, 2024

1. Nature of operations

College of Alberta Denturists (the "College") was established under the *Health Professions Act* to regulate the profession of denturism in Alberta and to strive to ensure that Albertans receive ethical, professional and safe denturist services. The College is registered as a not-for-profit organization and, as such, is exempt from income taxes under Section 149 (1)(I) of the Income Tax Act.

2. Significant accounting policies

The College follows accounting principles generally accepted in Canada in preparing its financial statements. The significant accounting policies used are as follows:

(a) Cash and cash equivalents

Cash and cash equivalents include cash and short-term investments with maturities of three months or less from their date of acquisition, which are readily convertible into a known amount of cash, and are subject to an insignificant risk to changes in their fair value.

(b) Short term investments

Short term investments consists of GICs with maturity of one year or less and are classified as current assets. Short term investments are carried at amortized cost except when it is established that their value is impaired. Impairment losses, or reversal of previously recognized impairment losses, are reported as part of net income.

(c) Capital assets

Capital assets are recorded at cost. The College provides for amortization using the declining balance method at rates designed to amortize the cost of the capital assets over their estimated useful lives. No amortization is recorded in the year of disposal. The annual amortization rates are as follows:

Equipment 20% Furniture and fixtures 20% Computer equipment 30% Computer software 30%

(d) Impairment of long-lived assets

The College tests for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Recoverability is assessed by comparing the carrying amount to the projected undiscounted future net cash flows the longlived assets are expected to generate through their direct use and eventual disposition. When a test for impairment indicates that the carrying amount of an asset is not recoverable, an impairment loss is recognized to the extent carrying value exceeds its fair value.

(e) Leases

Leases are classified as either capital or operating leases. Leases that transfer substantially all of the benefits and inherent risks of ownership of property to the College are accounted for as capital leases. At the time a capital lease is entered into, an asset is recorded together with its related long-term obligation to reflect the acquisition and financing. Equipment recorded under capital leases is amortized on the same basis as described above. Payments under operating leases are expensed as incurred.

(f) Revenue recognition

The Foundation follows the deferral method of accounting for contributions.

Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Regulated member permit fees are collected in advance and recognized over the year the fees apply to. Examination fees, application fees, and other revenues are recognized when the underlying transaction occurs.

Interest income and other income is recognized when earned on the accrual basis.

(g) Financial instruments

The College initially measures its financial assets and liabilities at fair value adjusted by, in the case of a financial instrument that will

College of Alberta Denturists Notes to the Financial Statements

December 31, 2024

not be measured subsequently at fair value, the amount of transaction costs directly attributable to the instrument. Amounts due to and from related parties are measured at the exchange amount, being the amount agreed up by the related parties.

The College subsequently measures its financial assets and financial liabilities at amortized cost, except for derivatives and equity securities quoted in an active market, which are subsequently measured at fair value. Changes in fair value are recognized in net income.

Financial assets measured at amortized cost are tested for impairment when there are indicators of possible impairment. When a significant adverse change has occurred during the period in the expected timing or amount of future cash flows from the financial asset or group of assets, a writedown is recognized in net income.

(h) Accounting estimates

The preparation of financial statements in accordance with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. These estimates are reviewed periodically and are reported in earnings in the period in which they become known. Actual results could differ from these estimates.

(i) Government assistance

Government and other grants related to capital assets are accounted for as deferred government assistance and amortized on the same basis as the related capital assets.

Operating grants are accounted for as revenue when earned.

(j) Measurement uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

(k) Fund accounting

The College of Alberta Denturists follows the restricted fund method of accounting for contributions.

In order to ensure observance of the limitations and restrictions placed on the use of resources available to the College, the accounts of the College are maintained in accordance with the principles of fund accounting. Accordingly, resources are classified for accounting and reporting purposes into funds. These funds are held in accordance with the directives of the Executive Council and the College's internal policies. For financial reporting purposes, the accounts have been classified into the following funds:

Unrestricted General Fund

This fund is available for general purposes and reflects the transactions associated with the operating activities of the College.

Invested in Capital Assets

This fund records the activities associated with the College's capital assets.

Restricted Emergency Response Reserve Fund

The College is responsible for managing operational costs incurred throughout the year. The Emergency Response Reserve Fund was established on April 09, 2021, to cover any overages from unbudgeted costs. The College Council may, at its discretion,

December 31, 2024

allocate funds from the General Fund to supplement operating cash shortfalls. This fund is held for that purpose.

Restricted Patient Treatment and Counselling Reserve Fund

As per the Health Professions Act, a regulator is responsible for the payment of treatment and counselling for any complainant who alleges unprofessional conduct in the forms of sexual abuse and/or sexual misconduct. This fund reflects the above financial obligations. A complaint must be deemed valid by the Complaints Director before the funds become available. The maximum amount and timeline that is available to the patient is as per the Funding for Treatment and Counselling Regulation and currently equals approximately \$25,000 per patient per complaint.

Restricted Fair Registration Practices Act Audit Reserve Fund

The Fair Registration Practices Act came into force on March 1, 2020. The regulations stipulate that the College may be audited on their registration practices and will be billed for

the audit process. This fund is held for that purpose.

Restricted Operational Reserve Fund

This fund is restricted to ensure the College has up to one year of operational funds available at its discretion should there be government directives or other influences that would affect the business of the College.

8. Commitments

The College's total commitments, under various operating leases, inclusive of estimated occupancy costs, is as follows.

The College leases is premises and office services under a lease agreement which expires on June 30, 2027 and requires monthly payments of \$1,691. In addition, the College is responsible for its share of operating costs, property taxes and management fees. Aggregate lease payments, including estimated operating costs, property taxes, and management fees, for the next five years are as follows:

December 31, 2024

\$ 82,956

\$ 73,936

The Committees' costs include travel, meetings, legal consultation and per diems. The above noted expenses do not include costs of the public members of Council for regular scheduled Council meetings, as their expenses are remitted to and funded by Alberta Health.

11. Government assistance and grants

The College received funding for the Canada-Alberta Job Grant (2023 - Alberta Jobs Now Program) in the amount of \$2,784 (2023 - \$7,813).

12. Financial instruments

Transactions in financial instruments may result in an entity assuming or transferring to another party one or more of the financial risks described below. The required disclosures provide information that assists users of financial statements in assessing the extent of risk related to financial instruments.

(a) Interest rate risk

The College is exposed to interest rate risk. Interest rate risk is the risk that the College has interest rate exposure on its short term investments, and capital lease obligation, which are at fixed interest rates and floating interest rates. This exposure may have an effect on its earnings in future periods. In the opinion of management the interest rate risk exposure to the College low and is not material.

13. Comparative figures

The financial statements have been reclassified, where applicable, to conform to the presentation used in the current year. The changes do not affect prior year earnings.
